Dear Sarah Rodgers,

APPROVAL and RECOGNITION of Dairy Maintenance Compound

The product **MAC Slay Residual Insecticides** has been considered in conjunction with the independent assessment report provided and determined to satisfy the requirements of regulation 30(3) of the Animal Products (Dairy) Regulations 2005 and regulation 43 of the Raw Milk for Sale Consumers Regulations 2015, when used in accordance with the label.

The product **MAC Slay Residual Insecticides** has been assessed and is approved for use in farm dairies and recognised for use in dairy premises when used in accordance with the label instructions.

This approval of the compound is subject to the following conditions:

1. To be used in accordance with label instructions for spot applications only.
2. Must not be used on or near milk contact surfaces.
3. Must not be used in areas where milk contact surfaces are exposed or milk is stored, including milking and milk storage areas.
4. If incidental contact with food contact surfaces occurs the surface must be cleaned to ensure all residues are removed
5. Animal feed must be removed and feed contact surfaces must be rinsed after use of this product.

This recognition of the compound is subject to the following conditions:

1. To be used in accordance with label instructions as a residual insecticide with precautions adhered to..
2. Must not be used on food or packaging contact surfaces.
3. Must not be used in areas where milk, dairy material, product, ingredients or packaging is present.
4. Except when used for spot applications only, food contact surfaces must be cleaned after use and before processing recommences.
5. If incidental contact with food contact surfaces occurs the surface must be cleaned to ensure all residues are removed.

Where this **approval** is stated on the product label, the statement “MPI approved for use in farm dairies” is to be used, unless an alternative is agreed in writing by MPI.

Where this **recognition** is stated on the product label, the statement “MPI recognised for use in dairy processing” is to be used, unless an alternative is agreed in writing by MPI.

Should this product be determined to be unsatisfactory when used as recommended by the manufacturer or an agent of the manufacturer at the stated dosage, MPI may withdraw this approval and recognition.

Review

This approval & recognition is valid for a maximum period of 5 years but is subject to periodic review and may be withdrawn at any time should the Director-General determine that there is sufficient evidence that the products are not fit for the purpose for which this approval & recognition applies. You will be issued a letter prior to the review date, which is set at **18 December 2025**, but you are responsible for ensuring that this review is completed if you wish to retain MPI approval & recognition of the above dairy maintenance compound.

Yours faithfully

Shaleen Narayan

Trade Name: MAC Slay Surface Residual Insecticide Surface Spray
Description: Insecticide
Code: Type A

Approvals:

This compound is approved for use in premises processing all animal product except dairy, operating under the Animal products Act regime.

This approval is under the following regulations and notices, subject to the conditions stated in this approval:

1. Regulation 11(4)(b) of the Animal Products Regulations 2000 and Regulation 18(4)(b) of the Animal Products (Regulated Control Scheme – Limited Processing Fishing Vessels) Regulations 2001
2. Clause 4(1) of Animal Products (Specifications for Limited Processing Fishing Vessels) Notice 2005, Part 1 Clause 1.2 of the Animal Products Notice: Specifications for Products Intended for Human Consumption issued 2016, and Part 1, Clause 1.2 of the Animal Products Notice: Specifications for Products intended for Animal Consumption, issued 2017.

Conditions:

1. This insecticide may be used in all areas.
2. This insecticide may only be used in edible areas as a space spray provided that, before use, all edible products and packaging materials, except canned products, are removed from the room.
3. After using this insecticide the room must be adequately ventilated, and all food surfaces thoroughly washed with potable water before edible products and packaging material are returned to the room.

This approval may be withdrawn at any time due to unapproved directions for use, or unsatisfactory performance, or any change in product formulation. The Branch Planning, Systems & Support Directorate must be notified if the holder of this approval wishes to transfer their products to another entity.

The product must be used in accordance with the manufacturer's instructions and specifications. The label may include a statement to the effect that the product is approved for use in premises registered under the Animal Products Act regime. Any statements made, however, must include the approval code and must be limited to the following unless otherwise specified:

MPI Approved Type A (All animal product except dairy)

Note: Former NZFSA statements must be removed from your labels.

This approval must not be used as a Ministry for Primary Industries (MPI) endorsement of any claim made for the product by the manufacturer.

This approval will remain valid until 29 July 2025 unless the approval is revoked by notice in writing at an earlier stage.

Any queries regarding this approval should be directed to MPI Approvals by either telephone on 04 894 2550 or by e-mail at approvals@mpi.govt.nz.

Yours sincerely,

Maree Zinzley
